THE JAYA CLASSICS AT SPACE FURNITURE

Jaya Ibrahim is known internationally for designing interior environments particularly for luxury hospitality projects such as Aman Resorts around the world, The Legian Bali and Capella Singapore. What sets Jaya Ibrahim's body of work apart from mainstream designs? Today's frequent luxury traveller already knows what to expect from the hotel or resort, before they even arrive. Many of those travellers will go that extra mile to find somewhere special to stay, somewhere with an in-depth sense of place, somewhere with a heart and soul.

Jaya Ibrahim designed projects offer environments that are authentic, as opposed to most of the properties of global hotel brands which try to offer consistency in their product by providing similar types of interiors worldwide.

Jaya Ibrahim

Amanikan - Luxury cruiser

Amanfayun, Hangzhou - restaurant

The Capella Singapore - lobby lounge

Authenticity for Jaya comes in the form of materials, colours and textures, genuinely rooted in the regions where he finds them. Jaya then develops a one-of-a-kind spatial concept and visual language for the design.

Jaya-designed interiors speak of a high level of sophistication well-suited for total relaxation. With the surge in demand from well-travelled design aficionados who purposefully seek to replicate the Jaya ambience at home, the Jaya Classics furniture collection is born. Exclusively available internationally at Space Furniture, one can now achieve the Jaya touch within the personal realm.

The Chedi Muscat, Oman - lounge

The Setai Miami - outdoor lounge

Arya Swivel Floor Lamp

Pitta Ayu Occasional Chair

Mirrah Wardrobe

Shwe Tall Cabinet

Each piece is available in a limited edition of only 36 in quantity and is manufactured to the exacting standards of Jaya by skilled traditional craftsman using the highest quality materials such as Makassar Ebony, Sonokeling (Javanese rosewood), uncut rock rubies for the handles, carved horn and carved bone.

The Jaya Classics furniture collection is a manifestation of an Asian luxury brand concept.

The Jaya Brand

Growing from strength to strength, The Jaya brand was established as a fuller expression of Jaya International Design, its interior design consultancy division. Through its successful track record and numerous inquiries from the luxury industry, the firm is currently engaged with a variety of projects across three broad categories – The Jaya collection, Jaya Environments and Jaya Lifestyle. Within these categories are plans to launch a luxury furniture collection, a Jaya branded boutique hotel, Jaya branded residences, branded destination spas and various bespoke luxury lifestyle goods. And with the recent rise of internationally well received brands born in Asia, the Jaya brand is positioned to be the next major Asian inspired luxury brand.
